One look at this model and you know that a great deal of study has been put into making this one a true work of art. This is the sister model of “The Oahu” that was created for the large family or multi-family use. The Hilo has been enhanced to work tirelessly in the rainy areas of our islands protecting its people with “eyebrow” overhangs, a generous covered lanai and enduring corrugated roof material. Its main Kitchen is enlarged to allow for more than one cook to prep meals. Check out its floor plan and see for yourself why this model is truly our “Big Island Gem”.
