

MODEL 1730 EFP ♦

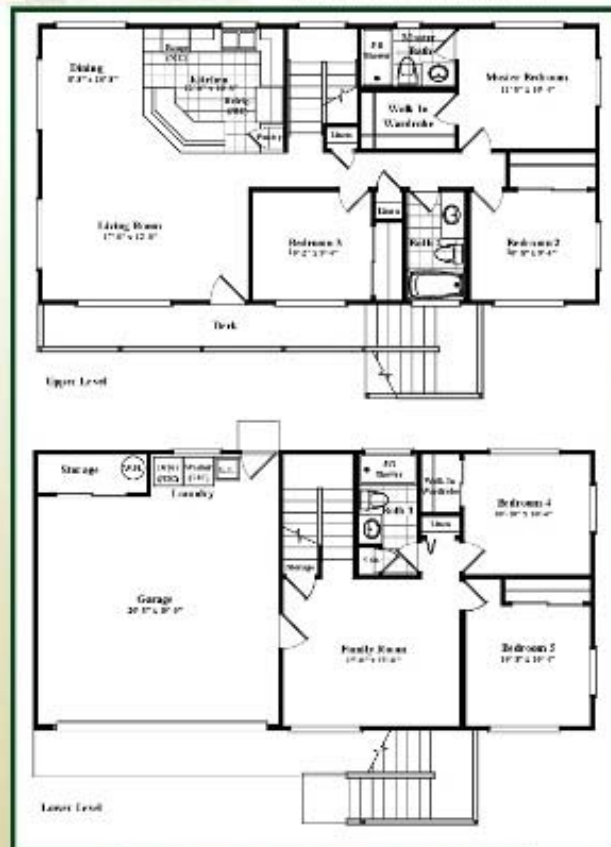

# KILOHANA

*"Superior"*

**TWO STORY - 5 BEDROOM,  
3 BATH, 1,730 SQ. FT.**

This model has been enhanced with a super kitchen layout that features an "Island" arrangement perfect for morning and afternoon meals with the family... or just doing homework or creative tasks within the eye shot of mom and dad. A larger shower replaces the traditional tub in the Master Bath suite and Bath #3. Safer and cleaner. All the features and benefits of the original Kilohana are still there, except we've added an automatic Garage Door for increased security, making it far superior to other models in its class.
