3 BEDROOM, 2 BATH, APPROXIMATELY 976 SQFT.

A great 3 bedroom, 1-1/2 bath design just got better. This enhanced version of the original Ikaika now has a reconfigured kitchen design that takes the corridor kitchen and converts it to a “wrap around” layout. A convenient “Island” has been added and the traffic pattern is simplified.

The Master bedroom now has a full bath featuring a shower in an efficient layout. Ikaika is an excellent value with lots of popular features.
